

Commission's rules.¹⁰³ A transfer of control, assignment or lease of licenses does not involve any engineering changes and, therefore, cannot have a significant environmental impact.

F. Ownership of License Entities

The entity being assigned licenses as a result of this transaction, ADC, will be a wholly owned subsidiary of AT&T. Therefore, ADC is entitled to rely on the FCC Form 602 ownership reports filed by AT&T.

IX. CONCLUSION

For the foregoing reasons, the Commission should conclude that the assignments and transfer described herein serve the public interest, convenience and necessity, and the Commission should expeditiously and unconditionally grant these Applications and approve the divestitures to AT&T pursuant to the *Verizon/ALLTEL Order*.¹⁰⁴

¹⁰³ *Id.* § 1.1307.

¹⁰⁴ *Verizon/ALLTEL Order* ¶¶ 157, 159.

Spectrum Aggregation Chart: Notes

1. The spectrum screen is based on the standards that the Commission set forth in the *Verizon/ALLTEL Order* and *Sprint/Clearwire Order*: 95 MHz, plus an additional 30 MHz where AWS-1 is currently available, and an additional 20 MHz where BRS is currently available.
2. To determine whether AWS-1 is currently available, data were obtained from the NTIA website (http://www.ntia.doc.gov/osmhome/reports/specrelo/pdf_20081209/data_20081209.htm), and all non-confidential fixed locations where the months to relocation were not deleted and greater than zero were then mapped. It was then determined in which counties a transmitter or receiver was located or was crossed by a microwave path.
3. To determine whether BRS is currently available, a review was conducted of the transition initiation plans and completion notices filed in WT Docket No. 06-136.
4. The spectrum totals for AT&T and the divestiture spectrum include AWS-I only in those counties in which AWS-I is currently available and thus included in the spectrum screen.
