

## NOTIFICATION TYPOGRAPHICAL CORRECTION

### Region 54 700MHz Committee

To: Jeannie Benfaida

I have attached two corrections.

The first is the cover page of the document. It is marked "Draft".

Secondly we discovered a typographical error on page 30. The original:

"Talkout coverage maps at 40, 25 and 5 dB $\mu$  using TIA/EIA TSB88-B or latest version. Maps must show, at a minimum, the jurisdictional border, and a line around the jurisdiction 3 miles out from that border."

The corrected reads as follows:

"Talkout coverage maps at 40, 60 and 5 dB $\mu$  using TIA/EIA TSB88-B or latest version. Maps must show, at a minimum, the jurisdictional border, and a line around the jurisdiction 3 miles out from that border."

Sincerely,

William J Carter  
Regional Chairperson Region 54
