)
To: The Commission)

**QUARTERLY CONSUMER OUTREACH REPORT OF
ALASCONNECT, INC.**

AlasConnect, Inc. (“AlasConnect”), pursuant to section 27.20 of the Commission’s rules hereby submits its quarterly report, covering the calendar quarter ending June 30, 2009, describing any outreach efforts it has undertaken to educate consumers about the transition from analog broadcast television service to digital broadcast television service (DTV).

AlasConnect was the successful bidder for a license in the 700 MHz Band pursuant to FCC Auction No. 73. On June 26, 2008 the Commission announced the grant of certain long form applications, including AlasConnect’s application for licenses in the 700 MHz.¹ By separate public notice, the Commission reminded the new licensees of their obligation to file a quarterly report describing their consumer education efforts in connection with the DTV transition.² AlasConnect was granted a license with call sign WQIZ358 (the “700 MHz License”). This public notice as extended by the DTV Delay Act *Second Report and Order*,

¹ *Wireless Telecommunications Bureau Grants 700 MHz Band Licenses*, Report No. AUC-73 (Auction No. 73) FCC Public Notice, DA 08-1522 (rel. June 26, 2008).

² *Wireless Telecommunications Bureau Reminds 700 MHz Band Licensees of Quarterly Reporting Requirements Relating to DTV Consumer Education Outreach*, FCC Public Notice, DA 08-1521 (rel. June 26, 2008).

indicated that the report covering the calendar quarter ending June 30, 2009 would be due by July 10, 2009.³

For the quarter ending June 30, 2009, AlasConnect had not implemented consumer outreach efforts for any customers with respect to services on its 700 MHz License because it does not yet have any such customers. AlasConnect had begun initial testing of 700 MHz equipment and, due to complications with the test equipment and the DTV extension, did not begin to offer commercial service before the end of the 2nd quarter of 2009.

Respectfully submitted,
ALASCONNECT, INC.
