Re: MB Docket No. 07-148
Digital Television Transition Education Report,
Rule Section 27.20

Correction to Previously Filed Fifth Quarterly Report

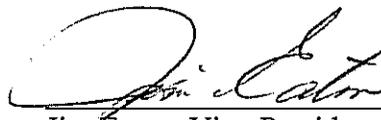

Dear Ms. Dortch:

Pioneer Telephone Cooperative, Inc. was recently granted 700 MHz License WY-BEA126-A by the Federal Communications Commission in Auction No. 73. It currently does not deploy service under this license; however, has undertaken efforts to notify our existing cellular, landline and digital television customers of the DTV transition.

Pursuant to Section 27.20 of the Code of Federal Regulations, Pioneer Telephone Cooperative, Inc. reports that for the quarter ended June 30, 2009, it supplied to its customer base, in the monthly bills dated April 1, 2009, and thereafter, information regarding the transition from analog to digital broadcast television. This information also included telephone numbers and internet addresses for customers to obtain additional information and/or request subsidized coupons. The information was also published in the bi-monthly Newsletters, which are mailed to all customers. Pioneer Telephone Cooperative, Inc. will undergo all outreach efforts required by the Commission's rules in order to educate its subscribers about the DTV transition.

Respectfully Submitted,

Pioneer Telephone Cooperative, Inc.

Jim Eaton, Vice-President of Finance
& Subsidiary Operations
