

I've noticing lately on sports channels. They've been showing too much violent, and sexual commercials. I'm concern about when kids watch sports. It ever seems like when sports channels. Not just sports but also news channels, others aswell. Go to a tv timeout they always tend to show some sort of violent, and sexual commercials. Yet they say this is good for the childern to watch. But i don't think so. When you have some very graphic materal. No wonder there's bullying going on in school. Yet when you educate your childern say no to violence. There still is.
