

We have had our channels terminated by Time Warner Cable twice, lately. They replace them with stations that are useless to us. They do this ON YOUR orders. Why do you do this? The channels removed have been local stations, supported by local advertisers that we patronize. The channels that replace them are 70 miles away, supported by advertisers that we DO NOT USE. THIS IS ONE HELL OF A WAY TO GET AN ECONOMY GOING. Please consult a map when you attempt to define an area of influence.

Regards,

H R McElroy
