

I have a family member in Macon state prison Georgia, I live in California. I am the only outside contact this young man has, it is too far to drive to visit him, therefor a telephone call means everything to him. The cost to myself to speak to this young man is \$39.80 TWICE a month at 15 minutes each call.

I feel this is OUTRAGEOUS!! Included it my Verizon package is no long distance toll charge. I am retired, this is a hardship for me.
