ERRATUM

Cochise Broadcasting LLC ("Cochise"), licensee of KZXX(FM), Doney Park, Arizona, by its attorneys, hereby respectfully submits its Erratum with regard to its Comments submitted August 7, 2009, in response to the Commission's *Notice of Proposed Rule Making*, DA 09-1362, released June 19, 2009 (the "*NPRM*").

Cochise has discovered that, through inadvertent error, the Comments submitted referenced a similar but incorrect docket and rule making numbers. Those Comments did, however, correctly reference the *NPRM* in this proceeding and the community of license in question. Cochise regrets any confusion that may have arisen and, in order to rectify the situation, is submitting this Erratum with a copy of the Comments as filed attached.

Respectfully submitted,

COCHISE BROADCASTING LLC

COMMENTS

Cochise Broadcasting LLC ("Cochise"), licensee of KZXX(FM), Doney Park, Arizona, by its attorneys, hereby respectfully submits its Comments with regard to the Commission's *Notice of Proposed Rule Making*, DA 09-1362, released June 19, 2009 (the "*NPRM*"). With respect thereto, the following is stated:

The *NPRM* in this proceeding proposes the substitution of Channel 293C2 for vacant Channel 255C2 at Leupp, Arizona. This proposal is a part of a hybrid application and rule making proposal, whereby Cochise has also proposed to modify Station KZXX(FM) from Channel 250A to Channel 255A (application File No. BPH-20090210AED). Cochise strongly supports the proposal set out in the *NPRM* as advancing the public interest.

KZXX(FM) currently operates as a short-spaced with a directional antenna pursuant to the Commission's contour protection rule. The channel substitutions at Doney Park and Leupp will eliminate that short-spacing and will allow KZXX to operate with a non-directional antenna. This elimination of a short-spacing and ability to change to an omnidirectional antenna clearly advances the public interest.

Furthermore, as demonstrated in the Engineering Statement attached to the Petition for

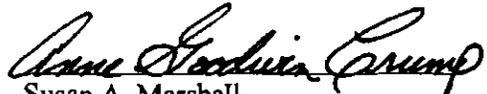

No. of Copies rec'd 094
List ABCDE

Rule Making in this proceeding, the proposed channel substitution for the vacant Leupp allotment may be made entirely in accordance with the Commission's spacing and community coverage requirements. The *NPRM* notes that a staff engineering analysis shows that Channel 293C2 may be allotted at the existing reference co-ordinates for the community of Leupp without site restriction. Thus, the proposed change would have no adverse effect upon any potential service at Leupp.

In sum, grant of the instant petition would result in the elimination of a short-spaced, Section 73.215 allotment with its accompanying limitations, and it would allow for the use of an omnidirectional in lieu of a directional antenna. These positive steps would serve the public interest and would make more efficient use of the spectrum, without any adverse effect on the allotment at Leupp.

WHEREFORE, the premises considered, Cochise respectfully requests that the Commission substitute Channel 293C2 for Channel 255C2 at Leupp, Arizona, as proposed in the *NPRM*.

Respectfully submitted,
COCHISE BROADCASTING LLC
