

After listening to Mark Lloyd in regards to silencing free speech through his socialist views, add surcharges of 100% on legal business to be given to Public radio or "PROPAGANDA STATIONS" who will preach only what the Government wants you to hear is appalling and a direct assault on the 1st Amendment!!! Beware the consequences of your actions as shown by the American people standing up to Government as we speak, it will get worse before it gets better and we will let all Americans know of this rebuke of the Constitution and our Rights.
