RE: Your desire to shut down conservative talk radio

It is un-American to propose the ideas and processes that you have in your little mind. Your comments in reference to the Dictator Chavez are REPREHENSIBLE. If you think that you will be able to silence Conservative talk radio you have another thing coming. You will be in for the fight of your life. Here is what you and your pal Obama can look forward to; tax revolts and a second revolution. You are simply promoting class warfare and all I can say is watch out because TRUE Americans are smarter than you think and we (AMERICANS) will win!!!!!!!!!!!!!! MARK MT WORDS.....The public is beginning to recognize the AGENDA OF THIS ADMINISTRATION.....
