

Are you really planning a "surcharge/tax/regulatory fee" (however the FCC may describe it) of 100% on certain stations/owners? Then redirecting the fee's to public stations such as PBS/NPR and other not for profit stations in Radio and Television? Can you please explain this proposal that I believe comes from your new Diversity Officer - Mark Lloyd. Lastly, who appointed him and did he need to pass a FBI background check prior to being appointed to this position? As a concerned citizen, a registered Independent Voter, I am bothered by these rumors I have heard. Can you please clarify these questions I have.

Scott Jahn
