Re: Notice of Permitted *Ex Parte* Presentation, WC Docket No. 09-144

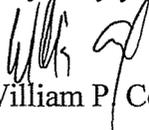

Dear Ms. Dortch:

On September 11, 2009, Millicorp met with Christi Shewman, Legal Advisor to Commissioner Baker, to discuss the Petition for Declaratory Ruling filed by Securus Technologies, Inc. on July 24, 2009 ("Securus Petition"). Millicorp discussed its Comments and Reply Comments opposing the Securus Petition and the comments and reply comments of other parties filed in response to the Commission's Public Notice on the Securus Petition, DA 09-1781, released August 10, 2009. Millicorp also discussed its request for investigation for inmate calling service ("ICS") providers Securus and Global Tel*Link Corp. ("GTL"), previously filed on July 15, 2009, with the Commission's Enforcement Bureau regarding the continuing unlawful blocking of calls to customers of Millicorp by Securus and GTL.

Millicorp emphasized that (1) it is a legitimate, FCC regulated interconnected voice over Internet Protocol ("VOIP") provider, no different than Google Voice or Vonage; (2) its VOIP service does not present a security risk to prisons or jails or in any way enable inmate dial-around or call forwarding of calls made from ICS providers' payphones; and (3) the unlawful and unauthorized blocking of calls to Millicorp customers by Securus and GTL continues at present without recourse in violation of federal telecommunications law and policy.

Representing Millicorp were Timothy Meade, President, Donovan Osborne, Communications Director, Christianna Barnhart, consultant to Millicorp/ legislative counsel with Bernstein Strategy Group, and the undersigned. This disclosure is made in compliance with 47 C.F.R. §§ 1.1206(a)(3) and (b)(2).

Very truly yours,

William P. Cox
