Dear Ms. Dortch,

Funding from USAC was used to aid students in a private Lutheran School who may not ever have an opportunity to compete in this fast changing world of technological advancement without it. Without this funding Resurrection Lutheran School would not have been able to wire its four classrooms, two offices and its computer room so that teachers and staff, students, administrators, and Pastor would have the same opportunity for internet access as children in public and other private schools and/or school with more and better access to funding.

Resurrection Lutheran School has been in existence for over 50 years. It presently serves students in pre-kindergarten to sixth grades. It is served by four teachers and a part-time principal. Volunteers are recruited to help with the curriculum and everyday responsibilities of running a dedicate educational and Christian program. The school presently has federal funding for Title I Programs at 76%. It is located in a community of public and mixed-income housing. The school endeavors to provide a numbers of opportunities that would otherwise not be available to this population.

During the initial stage of securing E-Rate for the children at Resurrection Lutheran School, numerous attempts were made to rectify any omissions including calls to various individuals in various locations. Contact was made with Donna Braband, Director for School, who informed us at that time that she was not available to approve Technology Plans until November of that year. Contacts were made with Rick Oppermann, Technology Consultant (Northern Illinois District LCMS School) who is listed as an Alternate Contact. Contacts were made with Beth Adams, ISBE Tech Support; Joe Boehle, ISBE contact to submit Technology Plan; and to Reed Sanders, NID Mission Facilitator. None of the individuals listed above gave Resurrection the needed assistance. We are therefore appealing your decision to recover funding for the 2005 Funding Year.

As the principal and responsible person at Resurrection Lutheran School, I would like to express my regrets for not having coordinated and directed this situation to a more desirable conclusion during a transition time. It was my responsibility to have offered the administrative leadership in securing this necessary document. And while there was no criminal intent or misappropriation of funds involved in this oversight (The classrooms, etc. are wired, the equipment is here and internet access is available in this building.), an omission was involved. I totally accept my professional shortfall and pray that the CHILDREN WILL NOT HAVE TO SUFFER BECAUSE OF ME.

Your in Christ,

Shirley Johnson,
Principal
