Dear Ms. Dortch:

On Tuesday, October 6, 2009, Donna N. Lampert, Mark J. O'Connor and the undersigned of Lampert, O'Connor & Johnston, P.C., and on behalf of Global Conference Partners ("Global Conference"), met with Albert Lewis, John Hunter and Lynne Engledow of the FCC's Wireline Competition Bureau, Pricing Policy Division. At this meeting, Global Conference discussed regulatory issues that must be resolved to ensure the public benefits of competitive conferencing services are realized.

Specifically, the parties discussed policies the FCC should adopt that would allow consumers to benefit fully from the network and enable utilization of competitive conferencing services, including:

- Resolution of the access stimulation proceeding by setting a prospective below-NECA cap on CLEC terminating access rates of 2 cents per minute on any CLEC loop or loops associated with a single CLEC subscriber that receives more than 1500 terminating access minutes in a month;
- Reconsideration of the *InterCall Order* to clarify that conferencing services that do not bundle long-distance with conferencing functions are not "telecommunications" or "telecommunications services;" and
- Enforcement of current law to stop the IXC practice of refusing to pay interstate terminating access charges.
