

DO NOT TRY TO TINKER WITH THE INTERNET or TALK RADIO trying to make it "FAIR" --- let the market do that. FREE INTERNET IS NOT A RIGHT. There is already free internet available in libraries.

In reality, there is no free lunch. This will cost the taxpayers an unbelievable amount of money that we do not have. Let the internet remain a free market business that offers competition and innovation.

It is wrong to try to shut down any talk radio that disagrees with any administration. OPINIONS are a RIGHT. FREEDOM OF SPEECH IS GUARANTEED BY THE FIRST AMENDMENT.

Thank You.
