

Media ownership has to become more diversified. I live in San Diego and I along with many San diegans would love an opposing view point to the Right Wing political Hacks on the Radio. Air America took to the airwaves in 2004 and lasted until 2007 it was well supported. thousands of us demonstrated and fought for progressive radio to remain to no avail. It is 2009 and very few of us have given up we're still fighting but it doesn't seem to matter because the ownership of stations is Conservative. Democrats out number republicans in this county for the first time ever! This county voted for a Democratic President for the first time Since Roosevelt! Yet, you'd never Know that listening to local radio in this town. The public interest is not being properly served and the problem is too much Media consolidation. We must have diversity.
