COMMENTS OF JBS, INC. IN SUPPORT OF
PETITION FOR FURTHER RULE MAKING

1. JBS, Inc. very fully supports the request made by the CTB Group, Inc. filed on September 10 of this year. I understand it to be for rule making that would apply the full power Distributed Transmission System rules to both Class A and low power Television Stations.

2. This Company owns and operates stations WJHJ-LP, WVBN-LP and WYSJ-CA in the Norfolk, Virginia Market. We have been in business since 1998.

3. JBS, Inc. has always believed in serving the local community and we believe that we have done that well with the resources available to us. We will always stay true to our roots, but would welcome the opportunity to be able to offer such things as wireless broadband access to the market. Combining this with the additional capabilities offered by use of digital broadcasting are services that we look forward to providing.

4. I respectfully ask the Commission to review the matter as quickly as possible and act favorably on the request of CTB Group, Inc.
