Re: *Ex Parte* Notice
MM Docket No. 99-25 (LPFM Proceeding)
MM Docket No. 99-325 (Digital Audio Broadcasting)

Dear Ms. Dortch:

On November 4, 2009, the undersigned of Media Access Project and Pete Tridish of Prometheus Radio Project met with Jamilla Bess Johnson, Interim Legal Advisor for Commissioner Michael J. Copps. During the meeting the parties generally discussed the issues raised in the LPFM proceeding and the request for a power increase in the digital radio proceeding.

With respect to MM Docket No. 99-25, Mr. Tridish and Ms. Desai urged the resolution of the pending Second Further Notice of Proposed Rulemaking. Specifically, the parties discussed: (1) reevaluating the priorities between LPFMs and translators; (2) adopting a contour methodology for licensing LPFMs; and (3) codifying the displacement policies.

With respect to MM Docket No. 99-325, Mr. Tridish and Ms. Desai urged the Commission to deny the request for a blanket power increase. The parties noted that testing thus far has failed to take into account the impact on LPFMs. The parties also noted the impact of self-interference to the analog signals. Additionally, Mr. Tridish and Ms. Desai noted the adoption of digital radio is minimal and a power increase could negatively impact the large number of radio listeners that still rely on the analog signal.

Pursuant to Section 1.1206(b), 47 C.F.R. §1.1206(b) of the Commission's rules, this letter is being filed electronically with your office today.

Respectfully submitted,

/s/

Parul P. Desai

cc: Jamilla Bess Johnson
