My comments regarding AAC Telephone Access for Speech to Speech customers is to point up that with the returning veterans of our current conflicts in addition to those of the Viet Nam War and others, we will be needing unprecedented resources to aid this very deserving portion of our population. At no other time in our history has there been such a demand for attention to those already disabled and a future that promises more to come. Attention to this matter is vital in providing those veterans with every aid that we can provide.
