

In reference to club callsigns:

The rules indicate that a club will no longer be issued more than one call sign, but clubs with existing, multiple call signs will be allowed to continue to renew their licenses.

My club is in a position where a nearby, neighboring club has lost so many of its members that they have requested a merging of the two clubs. Their existing callsign is one we wish to continue to use on the existing repeater. What are the rules and limitations for the surviving club to obtain the merging club's call sign?
