Re: ***EX PARTE NOTICE***

Revision to Rules Authorizing the Operation of Low Power Auxiliary Stations in the 698-806 MHz Band, WT Docket Nos. 08-166 and 08-167; Unlicensed Operation in the TV Broadcast Bands, ET Docket No. 04-186

Dear Ms. Dortch:

On December 9th, 2009, Shure Incorporated (“Shure”) met with Julius Knapp, Alan Stillwell, Geraldine Matisse, and Hugh Van Tuyl of the Commission’s Office of Engineering and Technology, and with Ruth Milkman, James Schlichting, Paul D’Ari, Bill Stafford, Paul Murray, Nese Guendelsberger, Jeffrey Tignor and Brenda Boykin of the Wireless Telecommunications Bureau to discuss ET Docket No. 04-186 and WT Docket Nos. 08-166 and 08-167. Attending this meeting on behalf of Shure were Mark Brunner, Senior Director, Global Public Relations, Edgar Reihl, Principal Engineer, and Catherine Wang and Tim Bransford of Bingham McCutchen LLP, outside counsel to Shure.

With respect to the dockets referenced above, we discussed Shure’s extensive, ongoing voluntary efforts to educate wireless microphone users and dealers about changes in the 700 MHz band. We discussed Shure’s concerns regarding the need to set a date to transition wireless microphones out of the 700 MHz band, the need for a reasonable transition period to source new equipment, and interference protection mechanisms for wireless microphones after the transition. We also discussed why Part 15 treatment is not appropriate for professional wireless microphones given user demand for real-time, high-fidelity, interference free wireless operations.
