Re : *Notification of Ex Parte Presentation*
WT Docket Nos. 08-166 & 08-167; ET Docket Nos. 02-380 & 04-186

Dear Ms. Dortch:

On behalf of Verizon Wireless, Tamara Preiss, Counsel, and the undersigned met with Rick Kaplan, Acting Chief of Staff, and Louis Peraertz, Acting Legal Advisor, Office of Commissioner Mignon Clyburn, on December 22 discuss the pressing need to eliminate wireless microphone operations in the 700 MHz band.

Verizon Wireless noted that it will launch commercial service using LTE technology in the 700 MHz band in 25-30 cities in mid-year 2010, and limited testing and operation of the technology is occurring in some markets already.¹ Further, public safety has already deployed networks in 40 plus markets, with many more on the way.² The record demonstrates that continued wireless microphone operations in the band (whether users are currently authorized or unauthorized) will result in interference and disruption of service to First Responders, broadband consumers, and wireless microphone users themselves. Consistent with its previous filings in the above-captioned proceedings, Verizon Wireless urged the Commission to act swiftly to eliminate authorized and unauthorized wireless microphone operations in the 700 MHz band.

¹ See Press Release, Verizon Wireless Completes Successful LTE 4G Data Calls In Boston And Seattle (Aug. 14, 2009) available at <http://news.vzw.com/news/2009/08/pr2009-08-14f.html>.

² See Comments of Motorola, Inc., WT Docket Nos. 08-166 & 08-167, at 3 (Oct. 3, 2008).
