WC DOCKET NO. 07-244

Comments Due: (14 days after Federal Register Publication)

Reply Comments Due: (21 days after Federal Register Publication)

In the Commission's May 13, 2009 *Porting Interval Order and Further Notice*, it sought comment, *inter alia*, on whether different or additional information fields are necessary for completing simple ports.¹ On November 2, 2009, the North American Numbering Council (NANC) Local Number Portability Administration Working Group submitted in this docket a non-consensus recommendation for Standard Local Service Request Data Fields, which accompanied the NANC's Recommended Plan for Implementation of FCC Order 09-41.² The recommendation proposes a set of 14 standard fields required to complete simple ports within the one business day porting interval for simple wireline-to-wireline and intermodal ports mandated by the Commission in the *Porting Interval Order and Further Notice*.³ On November 19, 2009, the National Cable & Telecommunication Association (NCTA), Cox Communications, and Comcast Corporation submitted an alternative proposal of eight standard fields to complete simple ports within the one business day porting interval.⁴ We seek comment on these proposals. Specifically, we seek comment on what fields are necessary in order to complete simple ports – wireline-to-wireline and intermodal – within the one business day interval. As we previously clarified, entities subject to our LNP obligations may not demand information beyond what is required to validate a

port request and accomplish a port.⁵ Thus, commenters should focus on the minimum amount of information needed to complete a port in considering what number of fields is appropriate.

The Commission concluded that nine months after the NANC submits its recommendation is sufficient time for parties to implement changes needed to implement one business day porting for simple wireline-to-wireline and intermodal port requests.⁶ Thus, to expedite the Commission's further consideration of the recommendations and facilitate implementation within this time frame, interested parties may file comments on or before (14 days after publication in the *Federal Register*), and reply comments on or before (21 days after publication in the *Federal Register*).

Comments may be filed using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies.⁷ Comments filed through the ECFS can be sent as an electronic file via the Internet to <http://www.fcc.gov/cgb/ecfs/>. Generally, only one copy of an electronic submission must be filed. If multiple docket or rulemaking numbers appear in the caption of the proceeding, commenters must transmit one electronic copy of the comments to each docket or rulemaking number referenced in the caption. In completing the transmittal screen, commenters should include their full name, U.S. Postal Service mailing address, and the applicable docket or rulemaking numbers. All filings concerning this Public Notice should refer to **WC Docket No. 07-244**. Parties may also submit an electronic comment by Internet e-mail. Paper filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although we continue to experience delays in receiving U.S. Postal Service mail). This document contains proposed new or modified information collections requirements. The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and the Office of Management and Budget (OMB) to comment on the information collection requirements contained in this document, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, *see* 44 U.S.C. § 3506(c)(4), we seek specific comment on how we might "further reduce the information collection burden for small business concerns with fewer than 25 employees."
