Starting available date: November 2003
Air interface: CDMA
Operating Frequency: 800, 1900
M-Rating: M3
T-Rating: None
Wi-Fi interface: None
Functionality Level: Enhanced

Product Information Labeling

Hearing aid-compatible handsets do not include labeling because the phones and the associated packaging were manufactured prior to the effective date of the current product labeling requirements.

Public Website

STi Mobile maintains a public website describing all of its handsets, including those that are hearing aid-compatible. Where applicable, the user guides for the handsets contain the compatibility rating for the handset and an explanation of the rating system. The address for the public website is: www.stimobile.com.

Consumer Outreach

STi Mobile has taken all reasonably commercial efforts to identify hearing aid-compatible handsets to its customers. As part of this effort, STi Mobile has identified hearing aid-compatible handsets on its website and trained its personnel to respond to customer inquiries regarding hearing aid-compatibility issues.

Explanation of Functionality Levels

- (1) Basic: entry-level handsets that contain standard voice and text functionality
- (2) Enhanced: mid-level handsets that contain advanced functionality, such as mobile Internet, camera phone and Bluetooth features
- (3) Feature: high-end handsets that incorporate premium functionalities and systems, such as smartphone and PDA capabilities

If you have any questions regarding this report, please contact the undersigned at (212) 660-2741 or Stephen.Lucash@stiprepaid.com.

Respectfully submitted,

Stephen Lucash
