

Dear FCC Commisioners:

In this day of mega-media, Net Neutrality is the ONE tool accessible to the citizens of the United States to EFFECTIVELY exercise their first amendment rights. Allowing this precious resource to be censorable by any entity, to any degree, for any purpose, would be an egregious mistake and an affront to the American Public. I urge the Commission to implement a robust Net Neutrality ruling in the broadest possible terms.

Sincerely,

-- Leandra Vicci
