

More than 1.6 million Americans have already called for Net Neutrality protections. -And that's just the Americans who've taken the time to petition. There are many, many more millions who feel the same way.

Please stand with us by passing a strong Net Neutrality rule.

Net Neutrality is the cornerstone of innovation, free speech and democracy on the Internet.

The FCC must protect Net Neutrality by enacting strong rules that keep the Internet free from blocking, censorship and discrimination and ensure that Internet service providers disclose all efforts to manage content.

If you are a true patriot, a real American, then you will side with the people, not corporations who are solely looking out for their interests and not what's best for ALL Americans.
