

You know if you tamper with a free internet and muzzle it. I will find a way to do a class act lawsuit on you AT&T, and Comcast. You will pay for me to finish my education. I want to keep my Internet free from lobbyist influence. I am over 18- I don't care to be told what I can and can't do as long as I am not in trouble with the Law, I don't need to be harassed by you. And I will take this as harassment, infringement on my 1st Amendment right and sue you along with everyone else who does not like this idea. I already hate 80% of our leadership in Washington. I want every sleezy bastard out of Washington. I want clean hearted folks to replace all the shitty leaders in Washington.
