

Dear FCC,

I am a former commercial radio and television broadcaster. Back in the 1960's, 70's and 80's the broadcasting industry was very competitive.

Now just a few large corporations own most of the radio and TV stations. I am glad to be retired now.

I support Net Neutrality. I don't want AT&T and Comcast controlling the Internet. I believe in freedom of speech, both in person and electronically.

Sincerely,

Denton Holmes
