

Net Neutrality is the engine of innovation, free speech and democracy on the Internet. The FCC must protect Net Neutrality by enacting strong rules that keep the Internet free from blocking, censorship and discrimination and ensure that Internet service providers disclose all efforts to manage content. More than 1.6 million Americans have already called for Net Neutrality protections. Please stand with us by passing a strong Net Neutrality rule.

I work for an internet service provider in northern California and I support this cause.
