

Stop the Telcos and Cable companies, et. al; from destroying the Openness and Freedom of the Internet, the last remaining truly Democratic means of communication that Americans have. Large media conglomerates own all the cable TV networks, Magazines, Newspapers, Radio. Don't allow them to Own/control the Internet.

News Media is becoming too concentrated and the only counter to that trend is the Internet.

Our Democracy depends on a Free and Open Internet. Our ability to compete globally depends on a Free and Open Internet.
