

This issue is not up for discussion or debate. It is NOT a consideration. No one has the right or authority to even debate this issue. The fact that any agency funded by the government would even consider this is a gross injustice to mankind.

I do not believe that the FCC can locate even one person in this country that is not affiliated with these corporations that will agree with what they want to do.

I am exhausted from this abuse.

More than 1.7 million Americans have already called on Washington to protect Net Neutrality â€” the rule that keeps control over the Internet in the hands of the people who use it.

The FCC must now act decisively in the public interest by enacting strong rules that keep the Internet free from blocking, censorship and discrimination.

Donâ€™t give in to pressure from AT&T, Comcast, Verizon and their lobbyists. Stand with us in support of a strong Net Neutrality rule.
