

As an American who uses internet to communicate daily with family members and friends abroad, organizations, customers, companies that offer services/products online, who is active in the community THANKS to internet, who uses the internet for research, to apply for jobs, to study, to find out about necessary medical procedures, who plans -and books and buys- her vacation online, who orders her food online and who expresses herself online, shares her art online among multitude of other things, I WANT TO BE ABLE TO CONTROL MY INTERNET EXPERIENCE without censorship, bias, pressure, or control BIG BROTHER style. YOU MUST PROTECT INTERNET NEUTRALITY. The FCC must respond URGENTLY to the imminent threat to Internet neutrality, freedom of expression, freedom as consumers, freedom of information and access by ENACTING RULES to keep the Internet FREE FROM BLOCKING, CENSORSHIP, DISCRIMINATION AND BIAS.

Real People will massively suffer the consequences of giving in to pressure from giants such as Verizon, Comcast, AT&T and their lobbyists. There is already enough unemployment in the USA as it is... by giving the big companies the power to decide what goes first, fast, slow or not at all, millions will loose their source of income, small business or entrepreneurs who depend extensively on a Free and Neutral world wide web will be badly affected, as well as the small and medium -and selective- consumers among which I can count myself.

Do not allow AT&T, Comcast, Verizon and so forth determine what we can say, do, see, buy, think, believe exchange! Stand with me and other Americans in support of a strong Net Neutrality rule!!!!

Sincerely,

Lia Friedman.
