

The use of cell phone boosters is critical in rural areas where there is no service. It helps a lot of businesses keep their company going because of the improved communication it provides. Making them illegal will hurt industries all over the country. I implore you to consider these facts when making the decision and to use common sense in your judgement. This will be very detrimental to a lot of people and their families. Think of the safety factor also such as being broke down in the country and being able to call for help or an emergency medical situation which could save lives. Please consider these things as they are very important. Thank you for reading this.
