Re: Notice of Ex Parte Communication, GN Docket Nos. 09-51, 09-47, 09-137

Dear Ms. Dortch:

On December 14, 2009, Kathy Cravedi, Director, NLM Office of Communications and Public Liaison, participated in a telephone conference with Jennifer A. Flynn, Adoption Manager, National Broadband Task Force. We discussed broadband adoption by older adults in the United States. Ms. Cravedi followed with an email citing resources at [www.nihseniorhealth.gov](http://www.nihseniorhealth.gov), stating the following:

Per our conversation, I hope you will be able to consider the benefits of a website or broadband-enabled application that would aggregate health benefit and prescription drug information, including a function that would let users know when they can opt for a less expensive generic version of a prescribed medication, in order to reduce costs both to the user and to Medicare/Medicaid.

Disclosure of this presentation has not been made by the presenter, by the next business day after the presentation, as required pursuant to 47 C.F.R. 1.1206(b). Disclosure herein in no way changes the presenter's obligations under 47 C.F.R. 1.1206(b)."

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Jennifer A. Flynn".
