

More than a million Americans have called on Washington to protect Net Neutrality – the rule that lets me control my Internet experience.

It's now time for the FCC to respond and enact strong rules to keep the Internet free from blocking, censorship and discrimination.

This is an issue with real consequences for real people. Don't give in to pressure from AT&T, Comcast, Verizon and their lobbyists. Stand with me and other Americans in support of a strong Net Neutrality rule.

It seems everyday our country is less and less free more rights and privledges are taken away daily. these big corporations do not want the everyday people to get ahead they want us all to go through them for their profit and for get the little man and the independent thinker. its sad this america and every day our freedom (what our country was originally built on ) is chipped away piece by piece. and it has to stop . its always about money not about rights and enough is enough. These companies should not have the right to censor us and discriminate or block us. when are we going to finally get back to the reason america was started in the first place to have freedom and liberty for all .
