

More than a million Americans have called on Washington to protect Net Neutrality — the rule that lets me control my Internet experience.

It's now time for the FCC to respond and enact strong rules to keep the Internet free from blocking, censorship and discrimination.

This is an issue with real consequences for real people. Don't give in to pressure from AT&T, Comcast, Verizon and their lobbyists. Stand with me and other Americans in support of a strong Net Neutrality rule.

The fact that the internet is free for anyone to use has allowed ideas to be shared, business to grow, inspiring students to learn more. Please do not stop the growth of the the internet by allowing business or goverment to put controls on it thereby stunting it's growth.
