

I join more than a million Americans who are calling on Washington to protect Net Neutrality — the rule that lets us control our Internet experiences.

It is time for the FCC to do its job by enacting strong rules to keep the Internet free from blocking, censorship, and discrimination.

This is an issue with every day consequences for each American. I ask you to stand up for our democracy by refusing to give in to pressure from AT&T, Comcast, Verizon, and their lobbyists. Americans are sick and tired of money buying undue and unfair influence. Stand with me and other Americans in support of a strong Net Neutrality rule.
