Re: Comments to Further Notice of Proposed Rulemaking
Amendment of Parts 15, 74, and 90 of the Commission's Rules Regarding Low Power Auxiliary
Stations, Including Wireless Microphones
WT Docket Nos. 08-166, 08-167; ET Docket No. 10-24

Dear Chairman Genachowski:

We are a House of Worship in Sarasota, Florida. We are writing to request the FCC to protect wireless microphones from interference and ensure that wireless microphone users will be eligible for licenses.

We are currently operating up to 13 wireless microphones as well as wireless hearing assist devices for Sunday morning worship services, funerals, weddings, community concert events, community recital programs and high school musical programs. The community has come to rely heavily on our facilities for much more than worship. We record many of these events for distribution to shut-ins. We need to have clear, interference free operations to insure the quality of our programs, worship and recordings.

We would ask you to ensure that any rule change that the FCC adopts will allow us to obtain an FCC wireless microphone license and continue to provide the worship and community services we are providing both currently and in the future.

If you have any questions regarding these comments, please do not hesitate to contact the undersigned.

Very truly yours,

James Lanier
Chairman Light, Site and Sound
St. John's United Methodist Church
