Re: 08-166, 08-167 and 10-24

Dear Sir or Madam:

I'm a professional sound contractor/installer. I install & maintain the audio systems in 42 Houses of Worship in Northeastern Wisconsin and Upper Michigan

I'm writing to encourage the FCC's expansion of licensing under Part 74 to include Houses of Worship as well as other venues used for public assembly including, but surely not limited to theaters, performing arts centers, sports facilities, and educational and government institutions. All of these have been using reliable wireless microphones for many years.

Unlicensed use under Part 15 - sharing spectrum with unlicensed consumer services (TVBDs) - would work a hardship to these and thousands of other Houses of Worship. I'm positive that the many other users of wireless microphones will be likewise negatively impacted. I strongly encourage you to expand the categories of licensed wireless microphone use under Part 74.

Respectfully submitted,
Thomas Olson -Owner
