VIA ELECTRONIC FILING

The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Re: Comments to Further Notice of Proposed Rulemaking
Amendment of Parts 15, 74, and 90 of the Commission's Rules Regarding Low Power
Auxiliary Stations, Including Wireless Microphones
WT Docket Nos. 08-166, 08-167; ET Docket No. 10-24

Dear Chairman Genachowski:

I have been in the music and entertainment business for over forty years. I am and have been responsible for putting on many a live event where the use of wireless ear monitors, guitars, and microphones were an essential part of being able to function in the venue. The work that I and others like myself do is a large revenue earner for the San Francisco Bay Area. Much of it is filmed and recorded and broadcast for world-wide consumption.

If we can no longer be assured of interference-free wireless technology, it will cripple our industry at a time when we are already struggling. Wireless technology has become a staple of our craft and without it our industry would suffer enormously. It is like asking secretaries to give up their computers and go back to typewriters

Please consider giving us an easy, streamlined, and affordable way to apply for wireless licenses. Please consider us when applying new rule changes.

Thank you,

Andre Pessis - hit song writer, audio professional, studio owner, concert promoter, and sitting Governor and former President of the San Francisco Chapter of The Recording Academy.
