**Statement of CPNI Procedures and Compliance**

8x8, Inc. ("8x8" or "Company") does not use or permit access to CPNI to market any services outside of the "total services approach" as specified in 47 CFR §64.2005. Nor does the Company allow affiliates or third parties access to CPNI for marketing-related purposes. If 8x8 elects to use CPNI in a manner that does require customer approval, it will follow the applicable rules set forth in 47 CFR §64.2001 *et seq.*, including the institution of operational procedures to ensure that the appropriate notification is provided and customer approval is obtained before CPNI is used or disclosed. 8x8 will develop and implement an appropriate tracking method to ensure that customers' CPNI approval status can be verified prior to using CPNI for marketing-related purposes. The Company will also adopt the requisite record-keeping requirements should it use CPNI in the future for marketing-related purposes.

Consistent with the Commission's rules, 8x8 uses, discloses, and permits access to CPNI without customer approval for the purposes of: (1) billing and collecting for services rendered; (2) protecting the rights and property of 8x8, other users, and other carriers from unlawful use; (3) providing inside wiring, installation, maintenance, and repair services; and (4) providing or marketing services that are within the same class of services to which the customer already subscribes.

8x8 does not currently market to customers that call and make inquiries concerning their account information. But should the Company choose to do so in the future, it will obtain a customer's oral authorization. 8x8 will also require each representative to provide the disclosures required by 64.2008(c) of the CPNI rules including informing customers of their right to deny access to the CPNI before requesting this one-time consent.

8x8 has implemented procedures whereby it will not provide CPNI without proper customer authentication and will only provide CPNI and call detail records over the phone by first employing proper customer authentication methods, including the use of a passphrase. Otherwise, call detail records are provided exclusively via e-mail or U.S. mail, to the postal or electronic address of record. 8x8 has implemented procedures to inform customers of change of address, e-mail and other changes to account information in a manner that conforms with the relevant rules.

8x8 has implemented procedures to provide law enforcement with notice should a breach of CPNI occur. After notifying law enforcement and unless directed otherwise, 8x8 will notify affected customers. 8x8 will maintain a record of any CPNI-related breaches for a period of at least two years.

All 8x8 employees who have access to CPNI receive training about CPNI compliance. Specifically, a summary of 8x8's CPNI policies are included in its Employee Handbook, and all employees are required to acknowledge in writing that they have read and understand the information in the Employee Handbook. All 8x8 employees are required to maintain the confidentiality of all information, including customer information that is obtained as a result of their employment by 8x8. Employees who do not abide by these policies or otherwise permit the unauthorized use or disclosure of CPNI will be subject to discipline, including possible termination.
