

Before the FCC decided to pursue Net Neutrality protections, Fox News Channel's Glenn Beck warned his audience that the government was "trying to take over the media." Beck later said that Net Neutrality would "wildly affect your life and free speech" by forcing a "Marxist utopia" on the Internet. Anyone with half a brain doesn't listen to Glenn Beck or his lies. He has the net neutrality issue backwards. If progressives spouted the poison he does, they would be taken off the air. Glenn Beck and Fox Entertainment are tools of the right wing and the FCC knows this. If the FCC is influenced by the cable and phone lobbyists, the people will be outraged!
