

Before the FCC decided to pursue Net Neutrality protections, Fox News Channel's Glenn Beck warned his audience that the government was "trying to take over the media." Beck later said that Net Neutrality would "wildly affect your life and free speech" by forcing a "Marxist utopia" on the Internet. The net IS the last Freedom of Speech arena the world has. It needs to be left alone so people are allowed to hear, read and see the truth. Unfiltered. China and other oppressive countries have censored the net, we don't need to be like them. Just think one day, with his ignorance, Glenn Beck may cause the loss of his own ability to speak his mind? I don't really care for Beck or Fox News but I wouldn't want to loose my freedoms in order to oppress theirs.
