Dear Ms. Dortch:

On March 5, 2010, David Zufall, Peter Corea and the undersigned of New DBSD Satellite Services G.P., Debtor-in-Possession (DBSD) met with Louis Paraertz, Legal Advisor to Commissioner Mignon Clyburn. DBSD reiterated matters presented in its comments in the above-referenced dockets addressing the National Broadband Plan. DBSD emphasized the need for operational flexibility and adequate spectrum for mobile-satellite service (MSS) and ancillary terrestrial component (ATC) systems to foster continued innovation and broadband expansion.

Please direct any questions about this submission to the undersigned.

Respectfully submitted,
