

My Lord, you can't be serious!! As an owner in Sirius/Xm radio the 170,000,000 given to the FCC for our spectrum not to mention the investment thereafter at minimum seems criminal to then allow it to be destroyed by neighboring spectrum sold for 14,000,000 to WCS. The FCC must be held accountable to the highest standards and should back off this proposal that will hurt so many. I hate to say it, but the decision seems corrupted by outside influence.
