Dear Chairman Genachowski,

I am writing you on behalf of the Memphis Urban League (MUL) to express my support for the Comcast-NBC Universal merger. This support is based on a similarity of purpose shared by my organization and the Comcast Corporation; it is based in our collective belief in the dissolution of social and economic barriers in our communities.

At MUL, our mission is to expand economic opportunity, secure parity, power and civil rights for all ethnic groups. In addition to supporting our efforts here in Memphis, Comcast also partners with the National Urban League (NUL). Together, Comcast and NUL are creating training programs for Comcast employment opportunities—opportunities designed to help adults attain economic self-sufficiency through good jobs and entrepreneurship. Comcast and its employees have also joined forces with MUL on a number of significant projects including a day of community-based service here in Memphis.

Through experience we have learned that commitment to diversity is inherent at Comcast. The company demonstrates that in all of its endeavors. With that in mind, we respectfully request your full support of the pending transaction.

Sincerely,

Tomeka Hart, President/CEO

Memphis Urban League
