

Before the FCC decided to pursue Net Neutrality protections, Fox News Channel's Glenn Beck warned his audience that the government was "trying to take over the media." Beck later said that Net Neutrality would "wildly affect your life and free speech" by forcing a "Marxist utopia" on the Internet. I support Net Neutrality which means free access to all. I urge the FCC to protect this free-flowing Web. Do not let the service providers have any control over this process. To do so would limit our free speech rights. I believe Glenn Beck's statements on a "Marxist utopia" are wildly inaccurate and self serving. Thank you for the opportunity to comment on this important issue.
