

Before the FCC decided to pursue Net Neutrality protections, Fox News Channel's Glenn Beck warned his audience that the government was "trying to take over the media." Beck later said that Net Neutrality would "wildly affect your life and free speech" by forcing a "Marxist utopia" on the Internet. Please ensure net neutrality for the internet. I believe that free speech on the internet depends on it. With the internet's power to equalize the distribution of information, this is the defining free speech issue of our time.

Thank you,
Nigel Kibodeaux
