Charleston, WV 25301

RE: Case Number: 09-0871-T-PC, Transfer of Verizon's local exchange and long distance  
business in West Virginia to Frontier Communications

Dear Executive Secretary Squire,

I have serious concerns about the proposed deal to sell Verizon's landlines to a small Connecticut  
company called Frontier Communications.

This sale is a disaster waiting to happen. Similar Verizon deals in Hawaii and the northern New  
England states have resulted in bankruptcy for the purchasing company, lost jobs, unmet  
broadband promises and poor service.

This deal will pad the pockets of Wall Street executives while leaving West Virginians behind.

I sincerely doubt Frontier will be able to service the entire state during emergencies like  
damaging winds and snow storms knocking down lines. And of course -- if and when this deal  
goes through -- how will Frontier be able to invest in broadband technology when they will  
become buried in \$3.3 billion of debt from this deal?

Please make sure that West Virginia doesn't get left behind with a second rate  
telecommunications infrastructure.

I strongly urge the Public Service Commission to reject this proposed sale. Our economic future  
depends on it!

Sincerely,

*Sandra Squire*

This deal will pad the pockets of Wall Street executives while leaving West Virginians behind.

I sincerely doubt Frontier will be able to service the entire state during emergencies like damaging winds and snow storms knocking down lines. And of course -- if and when this deal goes through -- how will Frontier be able to invest in broadband technology when they will become buried in \$3.3 billion of debt from this deal?

Please make sure that West Virginia doesn't get left behind with a second rate telecommunications infrastructure.

I strongly urge the Public Service Commission to reject this proposed sale. Our economic future depends on it!

Sincerely,

RE: Case Number: 09-0871-T-PC, Transfer of Verizon's local exchange and long distance  
business in West Virginia to Frontier Communications

Dear Executive Secretary Squire,

I have serious concerns about the proposed deal to sell Verizon's landlines to a small Connecticut  
company called Frontier Communications.

This sale is a disaster waiting to happen. Similar Verizon deals in Hawaii and the northern New  
England states have resulted in bankruptcy for the purchasing company, lost jobs, unmet  
broadband promises and poor service.

This deal will pad the pockets of Wall Street executives while leaving West Virginians behind.

I sincerely doubt Frontier will be able to service the entire state during emergencies like  
damaging winds and snow storms knocking down lines. And of course -- if and when this deal  
goes through -- how will Frontier be able to invest in broadband technology when they will  
become buried in \$3.3 billion of debt from this deal?

Please make sure that West Virginia doesn't get left behind with a second rate
