RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I know the FCC is considering the potential merger of Comcast and NBC-Universal. I am writing as president and CEO of a local Chamber of Commerce to provide my perspective about Comcast's degree of community commitment.

Comcast is a dedicated, active member of the business community of Jackson County. Indeed, its services are helping small and mid-sized businesses every day. Thanks to Comcast's broadband deployment in our area, local companies can reach a wider customer and supplier base, access better information, and save money on their phone service.

But Comcast is not just a key employer, vendor and service provider; it is also a supporter of economic and civic organizations in the Jackson area. At the Chamber, Comcast offers an affinity program for our members and has regularly sponsored events such as Jackson Social Networking. Comcast's John Gardner also serves on our Legislative Committee.

We are happy to have Comcast in our business community, and I am certain that's true for most Chambers of Commerce in the regions where Comcast has a presence.

Respectfully,
